## 52 LEADER'S REPORT

The Leader presented his report, which stated that the recent LGA peer review had gone extremely well. Gratitude was expressed to employees, partners and Councillors who participated in the review by being interviewed by the team during the week they were on site. The initial feedback was extremely positive, the peer team described the Council as a good council and said that much of what Broxtowe does is excellent. The team was impressed by the level of ambition and stated that they could see we were a council that delivered and was 'punching above its weight'. There was care for and support vulnerable people in the community and positive comments were made about the quality of political and managerial leadership, relationships between officers and members and the enthusiasm and positive attitudes of employees. In respect of the approach to reducing the impact of climate change they said that they thought we were trailblazers, and many of the ideas and actions we were engaged with they intended to copy and take back to their own authorities. We will receive their full report in due course and this will be published and reported to the Cabinet with an action plan which will address some suggestions for improvement the team made during their time with us.

Members were aware people in our community are struggling with cost of living pressures and astonishingly high energy and fuel costs. The Council's website contained information about sources of help and advice. The last edition of Broxtowe Matters contained a cost of living special. The Leader stated his gratitude for the work of voluntary sector agencies such as local food banks and food clubs, the CAB and also for the active way in which the financial inclusion officers were supporting Broxtowe tenants.

Responses to comments included:

- Shared Prosperity Fund – this was good news for the Council.
- Devolution – the Council would continue to work positively and constructively.

- Peer review – the final comments would be received with interest but the initial feedback was very positive.
