

Report of the Interim Strategic Director

REVIEW OF POLLING DISTRICTS AND POLLING PLACES1. Purpose of report

To ask the Committee to consider the issues arising from the review of polling districts and polling places.

2. Background

A review of polling districts and polling places was carried out between 1 October and 11 November 2018. Although not required, polling stations were also included. Details of the review were published on the Council's website and comments were invited from members of the Council, the Acting Returning Officers for the Broxtowe and Ashfield Parliamentary Constituencies, the MPs for the Broxtowe and Ashfield Constituencies, members of the Disability Forum and local political parties. Comments were submitted by the Acting Returning Officer for the Broxtowe Constituency including a suggested change to two polling district boundaries, one in Greasley and one in Kimberley, and a revised approach to the designation of polling places. The only other comments received were:

1. in support of the use of Changes Gym in the BCT2 polling district, rather than Bramcote Hills Primary School;
2. regarding changes to Stapleford ward boundaries which cannot be considered as boundary changes, other than to polling districts, are outside the scope of the review.

Further details are given in the appendices. If approved by the Committee, the recommendations in respect of the changes to the two polling district boundaries and the delegation to the (Acting) Returning Officer will need to be ratified by Council at its meeting on 19 December 2018.

3. Financial implications

There are no financial implications arising from the proposed changes.

Recommendations

The Committee is asked to RECOMMEND to Council that:

1. **The proposed changes to the polling district boundaries between GRE2 and GRE3 and KIM4 and KIM5 respectively as set out in appendix 1 be approved.**
2. **That polling places for the Broxtowe Parliamentary Constituency and the part of the Ashfield Constituency within the Broxtowe Borough area be designated as set out in appendix 2.**
3. **That authority be delegated to the (Acting) Returning Officer to make any changes necessary to polling stations at short notice before an election, with any permanent changes being approved by Full Council.**

Proposed Changes to Polling District Boundaries

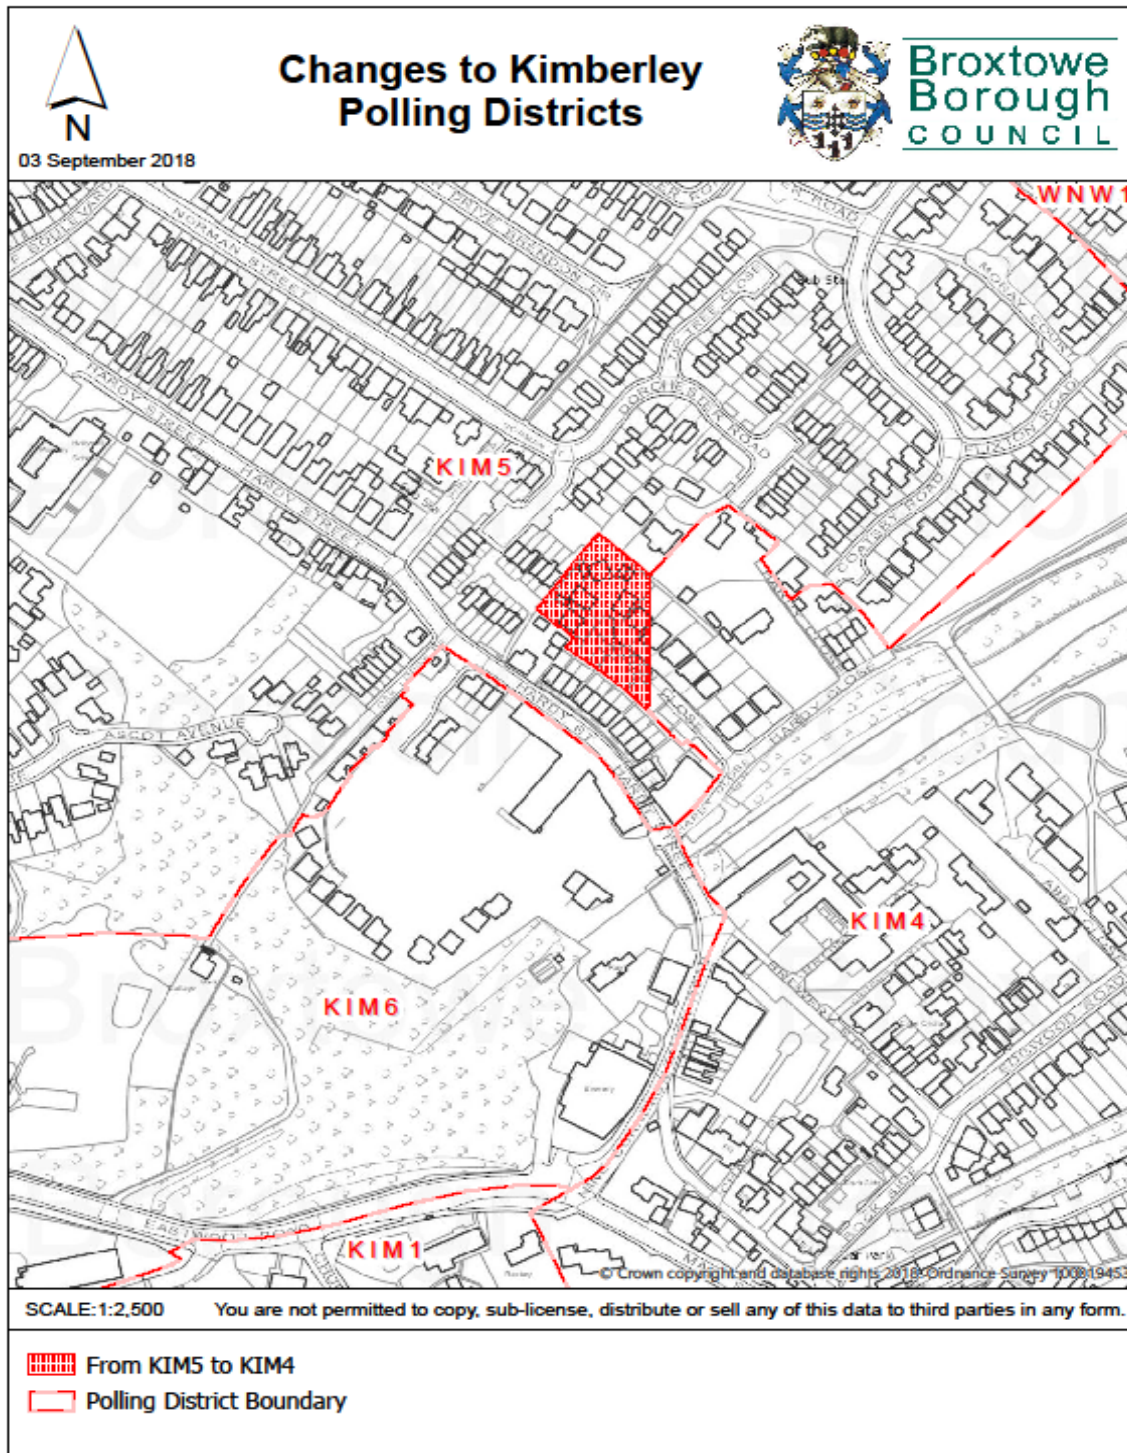

Greasley

The expected increase in the electorate in GRE2 and GRE3 within the next five years will have implications for the polling arrangements in both polling districts. An amendment to the boundary between GRE2 and GRE3 will help to balance out the electorate between the two areas. This would mean that electors previously in GRE3 would need to vote at the temporary station on the recreation ground, rather than at the unit in the car park, on Smithurst Road.

Kimberley

The boundary between KIM4 and KIM5 currently crosses Hanson Close. The proposed amendment would include all of Hanson Close in KIM4, so transferring electors in Hanson Close currently in KIM5 to KIM4. This would mean that electors previously in KIM5 would need to vote at Kimberley Parish Hall, Newdigate Street, rather than at Hollywell School, Hardy Street.

APPENDIX 2

Designation of Polling Places

The polling districts in Broxtowe have previously been designated as the polling places for the borough. This has allowed flexibility to alter the location of a polling station (the actual location where voting takes place within a polling place), if necessary, without the need to seek approval of full Council to a new location. Ward members have been informed of any changes and comments sought after an election on use of the alternative location.

The Acting Returning Officer of the Broxtowe Constituency has recommended that:

1. specific buildings in which polling stations are located should be designated as polling places.
2. polling places for the Broxtowe Parliamentary Constituency and the part of the Ashfield Constituency within the Broxtowe Borough area be designated as set out below.
3. authority be delegated to the (Acting) Returning Officer to make any changes necessary to polling stations at short notice before an election, with any permanent changes being approved by full Council.

The above recommendations are in line with Electoral Commission guidance which advocates that polling places should be defined more specifically than polling districts.

It is therefore recommended that polling places be designated as follows:
