

Serious Violence Duty - Local Response Plan

South Notts Community Safety Partnership

January 2024

Serious Violence Response Planning

Context

The Police, Crime, Sentencing and Courts (PCSC) Act 2022 provides new duties in respect to Serious Violence. The specific new Serious Violence Duty (SVD) requires specified authorities¹ to work together to prevent and reduce serious violence, including identifying the kinds of serious violence that occur in the area, the causes of that violence, and to prepare and implement a strategy for preventing and reducing serious violence in the area. The Statutory Instrument² confirmed that the Duty would commence on 31 January 2023.

The specified authorities are required to develop:

- a. An understanding of local issues: the partnership should work together to establish the local 'strategic needs assessment' of serious violence
- b. Preparation and implementation of a strategy: The strategy should set out how the proposed actions will enhance and complement existing local arrangements responding to serious violence. This may include consideration of joint funding or investment to support local early interventions and responses. Partnerships will also need to consult with any and all educational institutions, prisons and secure settings situated in the local area as part of this process.
- c. Review -The partnership should review the strategy on an annual basis. A review should specifically consider how the interventions and solutions have impacted on serious violence within their area

A Serious Violence Duty delivery plan detailing how the Duty funding will be implemented is also required to be submitted to the Home Office by January 2024.

Response plan

It has been agreed by specified authorities that an overarching county-wide Response Strategy will be developed and published to meet the requirements of the SVD by January 2024.

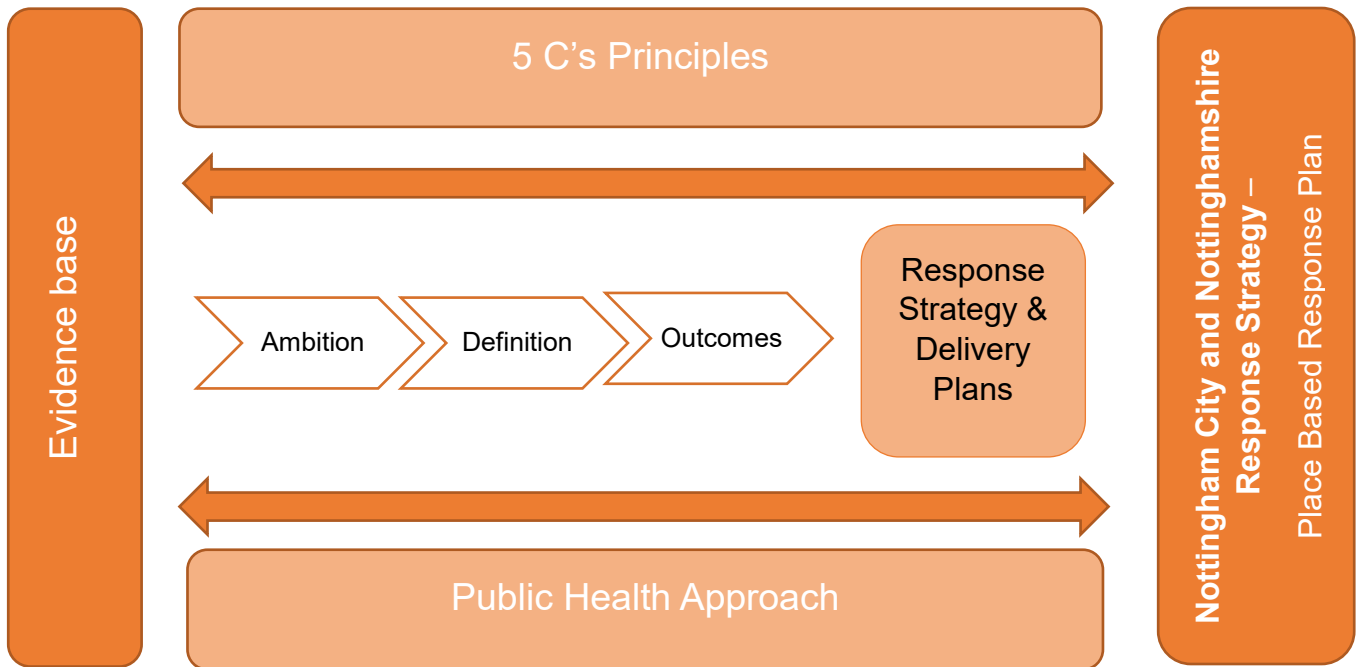

The Strategy will be supported however by a set of clear response plans for implementation of the Strategy and respond to the local evidence based needs. This will require an agreed set of actions with mechanisms and resources in place to enable delivery of all the priorities identified.

The place based Serious Violence/Community Safety Partnerships will take responsibility for the development and implementation of these response plans.

Considerations for developing the response plan

The purpose of the Place Based/District response plans is to set out the priorities and actions for each district in supporting the implementation of the Response Strategy. They have been developed within the context of the evidence base (Strategic Needs Assessments) and support the agreed ambition/vision; definitions and overall outcomes of reduction of serious violence and improving population health.

The following provides a flow chart of considerations during the development of the Response Plan.

Reducing Serious Violence Response Plan

South Notts Community Safety Partnership

Background

On 9th April 2018, the government published its Serious Violence Strategy setting out an ambitious programme of work to respond to increases in knife crime, gun crime and homicide. This Response Plan aligns to the priorities and ambitions set out in Nottingham and Nottinghamshire's Violence Reduction Partnership's (NNVRP) Serious Violence Response Strategy, of which the South Nottinghamshire Community Partnership is an active partner.

The NNVRP brings together specialists from the PCC, public health, clinical commissioning, police, local authorities, community safety partnerships, criminal justice partnerships, education, and voluntary and community sector organisations with a shared goal to reduce serious violent crime and the underlying causes countywide. It provides strategic leadership and coordination of the countywide response to preventing and reducing serious violence.

The Serious Violence Response Strategy is underpinned by a multi-agency public health approach to understanding the drivers and impacts of serious violence, with a focus on early intervention and prevention, tackling the root causes of violence and preventing young people from becoming involved in crime in the first place.

The Serious Violence Duty commenced on 31 January 2023 as part of the Police Crime, Sentencing and Courts Act 2022. The duty was introduced in the context of an increase in violence over the last decade and a recognition of the impact it has on victims and their families. The Serious Violence Duty requires organisations to work together to share information, analyse the situation locally and come up with solutions, including the publication of local Response Plan, aligned to the Response Strategy, to prevent and reduce serious violence on a local basis.

The Plan outlines a commitment to investing in prevention and early intervention activities that deals with the causes, rather than the consequences, of crime and anti-social behaviour (ASB). The Plan will be subject to annual review to ensure it continues to be responsive to national policy, the local evidence base and emerging insight. Progress will be reported to the Safer Nottinghamshire Board on a quarterly basis.

Our Vision:

Our vision is for Nottingham and Nottinghamshire communities to feel safe from violence and the fear of violence.

Our Mission:

We will work with communities to prevent violence and reduce its harmful impacts through developing a detailed understanding of its causes and investment in evidence-based interventions that make a lasting difference.

Our Focus:

Our definition of Serious Violence recognises the complexity of violence, with a focus on all incidents (including domestic violence) that cause serious harm. It also focuses on other offending that drives violence, so currently includes organised criminality and child exploitation

Need

- Reduction in Serious Violence through a Strategic Partnership Plan for South Notts using an analysis of Data.
- Reduction in serious violence related to alcohol consumption and the night time economy
- Reduction in serious violence linked to alcohol consumption in dwelling and domestic settings
- Reduction in domestic violence including strangulation/suffocation
- Reduction in dogs causing injury
- Reduction in weapon enabled crime
- Reduce vulnerabilities and increase support for vulnerable young people

Priorities

- Data and Insight to improve decision making and sustainability.
- Domestic and Sexual Abuse/Assault (Financial Control, Reporting and Stalking).
- Vulnerability in YP (County Lines, Gangs, Supporting YP to make better decisions).
- Education and Behaviour Change (Education support).

Gaps – What don't we know/improve insight

- Mental Health – Children Excluded from school and school off-rolling.
- Homelessness as a marker – YP people and sofa surfing, transition.
- Breakdown of sexual assault/rape – domestic and public space, historic – how does this affect the numbers?
- Consideration of Under 25's in the Local Area Profiles.
