

Trend Analysis (Upheld Complaint Actions)

The total number of upheld complaint actions per quarter is:

- **Quarter 1 (Q1):** 19
- **Quarter 2 (Q2):** 14
- **Quarter 3 (Q3):** 5
- **Quarter 4 (Q4):** 29

Key Insights

There is a steady reduction from 19 (Q1) to 5 (Q3).

This indicates short-term improvement or reduced reporting/resolution actions in early to mid-year.

However this increases to 29 in Q4.

This could reflect:

- Increased complaint volumes
- Improved identification/reporting of issues
- Seasonal pressures (e.g winter-related repairs/damp issues)

This shows a decline in upheld complaints followed by a strong rebound. It should be noted that this suggests reactive rather than sustained improvement measures.

Q1 – Q3 shows a period of corrective actions taking effect (training, reminders, process adjustments).

The increase in Q4 may suggest:

- Issues re-emerging
- Capacity/resource pressures
- More rigorous complaint review processes

Key Pattern (across all quarters)

The Housing Repairs Team, as highlighted above, forms the majority of complaints and upheld complaints every quarter. Other teams appear sporadically and at low volume.

Team	Q1	Q2	Q3	Q4	Trend
Housing Repairs	High	High	Moderate	Very High	Increasing long-term
Capital Works	0	0	Low	Moderate	Emerging issue
Housing Allocations	Low	0	0	0	Reduced
Tenancy Services	Low	0	0	0	Reduced
Other teams	Scattered	Minimal	Minimal	Small increase	Stable

The Housing Repairs Team accounts for the majority of upheld actions across all quarters, making it the primary driver of the overall trend spike in Q4.

Q3 dip reflects fewer actions overall, but not a structural shift, just reduced activity in complaints being upheld.

Q4 increase is concentrated in:

- Repairs
- Capital Works (growing contributor)

Root Cause / Theme Analysis**1. Communication Failures (Most frequent across all quarters)**

- Poor updates to residents
- Lack of contact during delays
- Leaseholder communication gaps

These issues appear consistently in Q1, Q2, and heavily in Q4.

2. Delays and Timeliness

- Repairs not booked promptly
- Delays not escalated
- Missed timescales

These issues appear consistently in Q1, Q2, and heavily in Q4.

3. Process & Case Management Issues

- Poor complaint escalation
- Failure to follow complaint policy
- Weak monitoring of ongoing actions

These issues appear consistently in Q1 and Q4.

4. Data Quality / Record Keeping

- Inaccurate complaint responses
- Opinion-based or incorrect information recorded

This is mostly present in Q1 and Q2, less so in Q3 and Q4 (suggesting improvement).

5. Pre-tenancy/Property Standards (Emerging Issue)

- Failure to check properties before letting
- Damp and mould identification gaps

This is mostly present in Q2 and Q3. This later evolves into Q4 damp/mould and survey issues.

6. Follow-up & Accountability

- Monitoring repairs
- Reviewing surveys
- Ensuring completion of actions

This becomes significantly more prominent in Q4.

Theme Trend Over Time

Theme	Q1	Q2	Q3	Q4	Direction
Communication	High	High	Moderate	Very High	Persistent issue
Delays	High	High	Moderate	Very High	Worsening
Process failures	Moderate	Low	Low	Moderate	Returns in Q4
Data quality	Moderate	Moderate	Low	Low	Improving
Property standards	Low	Moderate	Moderate	High	Growing risk
Follow-up/monitoring	Moderate	High	Low	High	Re-emerging

Communication and delays are highlighted as the primary failure pattern

These two issues appear in most upheld complaints, especially:

- Residents are not informed of delays
- Repairs are delayed and are poorly communicated to the resident

The increase in Q4 indicates that learning is not being embedded within the appropriate Teams when complaints are upheld.

Actions for 2026/27**Complaints Team (Democratic Services)**

During the course of the 2026/27, the Complaints Team will undertake the following actions to further understand and improve the issues with complaint handling within the Council:

- Review complaints by team (especially Housing Repairs Team, which forms the majority of complaints)
- Categorise themes (communication, delays, repairs, data handling)
- Compare with complaint volumes (to understand if this is rate-driven or volume-driven)
- Introduce quarterly controls to stabilise performance.

Housing Repairs/Capital Works

Further works have been undertaken to improve the coordination between Housing Repairs and Capital Work Teams. This work will be more achievable as the two Teams are now part of the same directorate.

An extra Housing Complaint Officer is currently being considered by Cabinet to assist the existing post with stage 1 complaints, capturing lessons learned and monitoring actions identified as part of the learning.

Having two posts will allow the Housing Department to proactively monitor follow up works identified as part of the complaints process.

A restructure of the Housing Repairs Team, including recruitment to the Housing Repairs Manager, is currently underway. The Housing Repairs Manager will have responsibility for all of the Council's Repairs Operatives to increase oversight of the works being scheduled and undertaken.

A specific Damp and Mould Team will form part of this restructure with a dedicated inspector and clear management responsibility of the Team.

Monthly meetings are taking place between the Housing Complaints Team and Democratic Services Teams to ensure compliance with Housing Ombudsman's Complaint Handling Code and to identify any emerging and resource issues.

The Housing Department are currently undertaking a refresh of the tenant complaint panel, with a new terms of reference and a dedicate membership. As part of this refresh, particular emphasis on will be placed on recommended improvements and compliance with the Housing Ombudsman's Complaint Handling Code.

The Planning Team had correctly assessed the operating hours of the tennis club.

The Planning Enforcement Team determined that a section of the fence was a breach of planning regulations. This section of fence was removed, at the request of the Planning Enforcement Team, and no further action is now required.

An apology was offered to the complainant.

Assistant Director Comments

It is recognised that an appropriate level of service was not provided. The Planning Team recognises the importance of good communication especially when delays are likely.

7. Complaint against Planning

Response – 20 working days

Complaint not upheld

Complaint

The complainant contacted the Council and complained that the Planning Team did not provide the Planning Committee with all the relevant information to determine a planning application.

Council's response

It was determined that all the relevant information was included in the report which was subsequently reviewed by the Planning Committee.

Furthermore, the Planning Committee visited the proposed development and determined that the original plans did not protect the complainant's amenity enough. This was subsequently altered at the Planning Committee to impose a condition to erect screening to protect their privacy. This condition was approved and the screening has since been erected.

The complainant addressed the Planning Committee under the Council's public speaking to raise their concerns regarding the application.

The correct decision was undertaken not pursue the matter further as the likely outcome would not be favourable.

9. Complaint against Planning

Response – 20 working days

Complaint not upheld

Complaint

The complainant contacted the Council and complained that the Planning Team did not consider the loss of neighbour amenity when determining a planning application.

Council's response

It was determined that the Planning Team had correctly assessed the application and the potential loss of neighbour amenity.

It was determined that there was minimal impact on neighbour amenity to justify conditions that required the side windows to be obscurely glazed.

However, the Council recognises that the submitted and approved plans, while not specifically annotated, showed the side windows drawn with the same effect as the obscurely glazed bathroom window.

While the plans showed the side windows to be drawn with the same effect as the bathroom window there was no obligation for these windows to be obscurely glazed.

Assistant Director Comments

The Planning Team had correctly assessed the application.

1. Complaint against Housing Repairs

Response – 20 working days

Complaint upheld

Complaint

The complainant contacted the Council and complained that the Housing Repairs Team did not correctly notify them, as a leaseholder, of the works that were required to a block of flats and that access was required to their garden. Additionally, the complainant's complaint was not escalated correctly by the Housing Repairs Team.

Council's response

It was determined that an appropriate level of service was not provided as the Housing Repairs Team did not inform the complainant of the necessity to access their garden to complete works for a Council Tenant.

The Housing Repairs Contractor entered the garden, without permission or notification, to install a drain on the communal land to prevent a damp issue at a Council property. The Housing Repairs Team did not comply with Clause 3 (g) of the complainant's leasehold to provide them with three days' notice before the works were undertaken.

The Council also recognises that the complainant's stage 2 complaint request was not correctly progressed by the Housing Repairs Team. Due to an administrative error, the complaint was not correctly passed to the Complaint Team which resulted in a 6-month delay in the complaint being escalated.

An apology and £500 compensation was offered and accepted.

Assistant Director Comments

It is recognised that the Housing Repairs Team did not correctly comply with the clauses of the Leaseholders lease. Furthermore, the Housing Repairs Team did not escalate the complainant's complaint correctly.

Complaint Team Recommendations/actions

- The Housing Repairs Team has been reminded of their responsibility to notify Leaseholders as per the Clauses set out in their leases.
- The Housing Repairs Team has been reminded of their responsibility to affectively communicate with Leaseholders where access and works are required.
- The Housing Repairs Team has been reminded of the importance of escalating complaints in a timely manner and to avoid delays in line with the Complaints Policy and Complaint Code.

2. Complaint against Housing Repairs

Response – 20 working days

Complaint not upheld

Council's response

It was determined that an appropriate level of service was provided as the Housing Repairs Team had appropriately provided remedies to the issues identified relating to the damp and mould during previous complaint investigations.

Furthermore, there was no evidence that suggested that the complainant had been unable to live at their property. While works had been undertaken at the property, these works did not require the complainant to move out.

Assistant Director Comments

All works to remove the damp and mould had been completed. There has been no further reports of this returning and no evidence that suggested that they were unable to live at the property.

3. Complaint against Housing Repairs

Response – 20 working days

Complaint upheld

Complaint

The complainant contacted the Council and complained that the Housing Repairs Team did not deal with a damp and mould issue at their property, which included repairing the loft space.

Council's response

It was determined that an appropriate level of service was not provided as the Housing Repairs Team did not proactively monitor the requirement for the loft works to be rescheduled.

Furthermore, the Housing Repairs Team used incorrect information in the response of the stage 1 complaint by stating that delays occurred in the damp inspection due to access issues.

The Council records highlight that the works to remove the damp and mould from the bathroom have been undertaken in a timely manner.

The Council had appropriately removed the mould from the complainant's bathroom when reported. When it was indicated that this had returned, a full damp inspection was performed by the Council's specialist damp and mould contract. It had been reported that condensation is causing the mould to grow in your bathroom.

The Housing Repairs appropriately inspected the roof and undertook the necessary repairs. However, they were unable to check the loft space as recommended by the specialist damp and mould contractor as the complainant had to leave the property.

A additional inspection was not booked by the Housing Repairs Team which caused delays. The remaining works were booked and undertaken by the Housing Repairs Team.

An apology and £250 compensation was offered and accepted.

Assistant Director Comments

The Council recognises the inconvenience caused by not correctly monitoring the necessity to rebook the loft works.

Complaint Team Recommendations/actions

- The Housing Repairs Team has been reminded of their responsibility to proactively book repairs that cannot be completed on the same day and to monitor these actions until their completion.
- The Housing Repairs Team has been reminded of their responsibility to ensure that they are using accurate information when compiling complaint responses.

4. Complaint against Housing Repairs

Response – 20 working days

Complaint upheld

Complaint

The complainant contacted the Council and complained that the Housing Repairs Team did not deal with an issue of water hammer in timely manner.

Council's response

It was determined that an appropriate level of service was not provided as the Housing Repairs Team did not proactively book an inspection to review the water hammer when this was registered as part of the stage 1 complaint.

Furthermore, the Council's record keeping has been substandard as there is an instance in which the records do not indicate that an inspection took place.

An apology and £750 compensation was offered and accepted. All further works to the water hammer were booked and undertaken.

Assistant Director Comments

The Council recognises the inconvenience caused by not correctly monitoring the necessity to review the water hammer.

Complaint Team Recommendations/actions

The Housing Repairs Team has been reminded of their responsibility to resolve repairs in the first visit. Where this cannot be undertaken, the Housing Repairs Team have been reminded of their responsibility to proactively book and track the repairs until their completion.

5. Complaint against Housing Repairs

Response – 20 working days

Complaint upheld

Complaint

The complainant contacted the Council and complained that the Housing Repairs Team did not deal with an issue of damp and mould at their property by removing their loft vents. Additionally, a damp survey was undertaken at the property but the results were not shared with the complainant.

Council's response

It was determined that an appropriate level of service was not provided as the Housing Repairs Team had not recorded the reason for the complainant's loft vents being removed in the first instance.

As these vents had been removed, this may have been affecting the damp and mould at the property. These vents were correctly reinstalled. Furthermore, the Council recognises that by not providing the complainant with the outcomes of the damp surveys the complainant was unable to make an informed decision regarding the condensation at the property and how to treat this.

An apology and £2,000 compensation was offered and accepted.

Assistant Director Comments

The Council recognises the inconvenience caused by not sharing the results of the damp surveys and not recording the reasoning for initially removing the vents at the property.

Complaint Team Recommendations/actions

The Housing Repairs Team has been reminded of their responsibility to provide individuals with the outcome of damp surveys to ensure that they are fully informed of issues identified. This would allow individuals to make informed decisions on how damp and mould can be maintained.

6. Complaint against Housing Repairs

Response – 20 working days

Complaint upheld

Complaint

The complainant contacted the Council and complained that the Housing Repairs Team did not deal with a faulty hot water system in timely manner.

Council's response

It was determined that an appropriate level of service was not provided as there had been protracted delays in Housing Repairs Team repairing the issue with the heating and hot water.

While works had been undertaken to the heating and hot water, these works had failed, and the operatives did not fully repair the issue for a 3-month period. Furthermore, the Housing Repairs Team did not proactively book or monitor the works required to the heating and hot water which further exacerbated the delays in the full repair being undertaken.

The Council recognises that by not repairing the issues in the first instance, this caused significant delays in the heating and hot water working correctly.

An apology and £1,500 compensation was offered and accepted.

Assistant Director Comments

The Council recognises the inconvenience caused by not repairing the hot water system in the first instance.

Complaint Team Recommendations/actions

- The Housing Repairs Team has been reminded of their responsibility to:
- Resolve repairs in the first visit. Where this cannot be undertaken, the Housing Repairs Team have been reminded of their responsibility to proactively book and track the repairs until their completion.
- Ensure that works are booked in a timely manner to ensure that these are completed promptly.

Response – 20 working days

Complaint not upheld

Council's response

This complaint could not be investigated as the complainant had an active disrepair claim open regarding the same issue. The Council's Complaints Policy states:

"A complaints policy must set out the circumstances in which a matter will not be considered as a complaint or escalated, and these circumstances must be fair and reasonable to residents. Acceptable exclusions include:

- The issue giving rise to the complaint occurred over twelve months ago.
- Legal proceedings have started. This is defined as details of the claim, such as the Claim Form and Particulars of Claim, having been filed at court.
- Matters that have previously been considered under the complaints policy."

8. Complaint against Housing Repairs

Response – 20 working days

Complaint not upheld

Complaint

The complainant contacted the Council and complained that the Housing Repairs Team did not deal with a returning leak in timely manner.

Council's response

It was determined that an appropriate level of service was provided as the Housing Repairs Team had attended the complainant's property and neighbour's property in a timely manner to repair the leaks.

There was no evidence to suggest that the Housing Repairs Team had acted inappropriately when responding to the leaks. The leaks had been repaired on the same day or the following day of reporting and remedial works had been undertaken in a timely manner.

While the Council had taken action to work with the tenant regarding the leaks and the issues had been referred to the relevant safeguarding teams, the Council were unable to provide the exact works or outcomes of these actions due to data protection with the complainant.

Assistant Director Comments

The Housing Repairs Team act promptly when the repairs were reported. Additional support was being provided to the tenant and their property where the leaks occurred.

9. Complaint against Housing Repairs

Response – 20 working days

Complaint upheld

Complaint

The complainant contacted the Council and complained that the Housing Repairs Team did not deal with an issue of damp and mould at their property correctly. Furthermore, the decant property offered to them while the damp works were undertaken was not appropriate.

Council's response

It was determined that an appropriate level of service was not provided as the Housing Repairs Team did not offer the complainant an appropriate decant property.

Furthermore, the Housing Repairs Team only offered one option for the decant property despite it not being suitable for the complainant's needs and no further action was taken. This caused the complainant to obtain an alternative arrangement. The Council recognised that the issue of damp and mould has been persisting at the property for a number of years and it had taken an extended time to resolve this.

While works had been undertaken, follow up actions were required to fully resolve the issues.

An apology and £2,500 compensation was offered and accepted.

Assistant Director Comments

The Council recognises the inconvenience caused by not offering an appropriate decant property in the first instance. Furthermore, the damp and mould issue should not have been delayed in its repair.

Complaint Team Recommendations/actions

The Housing Repairs Team has been reminded of their responsibility to offer appropriate temporary accommodation in the first instance. Where this cannot be met, the Housing Repairs Team have been reminded to proactively look for alternative arrangements.

10. Complaint against Housing Repairs

Response – 20 working days

Complaint upheld

Council's response

It was determined that an appropriate level of service was not provided as the Housing Repairs Teams did not correctly explain the legal letter that was issued to the complainant due to requiring access to their property to ensure it was compliant with gas safety.

While the Council were obligated to issue the letter to ensure that the property was compliant with gas safety, the process and the legal letter could have been explained more clearly by the Housing Repairs Team.

An apology was offered.

Assistant Director Comments

The Council recognises the inconvenience caused by correctly explaining the legal process and the distress this may have caused.

11. Complaint against Housing Repairs

Response – 20 working days

Complaint upheld

Complaint

The complainant contacted the Council and complained that an issue of damp and mould had not been rectified at their property.

Council's response

It was determined that an appropriate level of service was not provided as the Housing Repairs Team did not correctly schedule a damp survey with a specialist contractor in a timely manner.

While the Housing Repairs Team had inspected the property and the damp, by not booking a survey with the specialist damp contractor this further extended the period in which the complainant had reside in the property with a damp issue.

Furthermore, the Housing Repairs Team incorrectly booked a treatment for the damp that would not tackle the root cause of this problem.

The correct survey was booked and the works were undertaken to remove the damp and mould from the property.

An apology and £2,000 compensation was offered and accepted.

Assistant Director Comments

The Council recognises the inconvenience caused by not correctly booking the works to remove the damp and mould at the property.

Complaint Team Recommendations/actions

- The Housing Repairs Team has been reminded of their responsibility to correctly identify and book works, especially where specialist contractor involvement is required, in a timely manner.
- The Housing Repairs Team has been reminded of the necessity to identify any damp issue before the commencement of an individual's tenancy.

16. Complaint against Housing Repairs

Complaint upheld

Complaint

The complainant contacted the Council and complained that the Housing Repairs did not repair a sewage leak in a timely manner.

It was noted that as part of the stage 1 complaint, the complainant was offered £250 compensation in recognition of the delays in the complaint response being issued.

There was no evidence to suggest that the Housing Repairs Team acted inappropriately when dealing with the drain blockage.

The Housing Repairs Team attended and cleared the blockage on the same day it was reported. It had been identified that the blockage was the responsibility of Severn Trent by two external contractors. However, the works were completed by the Housing Repairs Team despite this.

The works to repair the property and bring it up to standard have since been completed.

An apology and £500 compensation was offered and accepted.

18. Complaint against Housing Repairs

Response – 20 working days

Complaint not upheld

Complaint

The complainant contacted the Council and complained that an issue of damp and mould had not been rectified at their property.

Council's response

It was determined that an appropriate level of service was provided as the Housing Repairs Team correctly removed the damp and mould when reported.

The Council recognises that delays occurred in the damp and mould being identified at the property in 2023. This issue had previously been concluded and compensation was awarded at this stage.

The current damp and mould issues the complainant was encountering was caused by condensation at the property. This had been identified by two separate specialist contractors.

As part of the complainant's disrepair claim, the contractor identified that the damp and mould was caused by condensation. This was identified as the Council as being not liable for this issue.

All works relating to the damp and mould had been undertaken promptly. However, access could not be gained to the property to complete a mould wash.

Following further reports of damp and mould, the Council arranged for a contractor to review the issues at the property.

It was identified that an internal wall required a damp proof course. However, this works is not linked to the condensation at the property due to the location of the wall and areas that are affected by the condensation.

The work to install a damp proof course has not been scheduled at the complainant's request as they requested the works to be completed after the holiday period.

Assistant Director Comments

The Housing Repairs Team take all reports of damp and mould seriously. All works were completed in a timely manner when reported and have been reviewed by specialist contractors.

As the Housing Repairs Team were unaware of the leak, repairs could not be undertaken to prevent further damage to the flooring until it was reported.

Furthermore, the flooring is none standard and would not be repaired by the Housing Repairs Team.

The complainant was advised to make an insurance claim either through their own insurer or the Council's.

Assistant Director Comments

The complainant contacted the Council and complained that an issue of damp and mould had not been rectified at their property.

Council's response

It was determined that an appropriate level of service was not provided as the Housing Repairs Team/Capital Works Team delayed the inspections and works to the property to remove the damp and mould.

While the Housing Repairs Team undertook several inspections and mould washes, the Council's records indicate that several of the works to remove the damp and mould were not undertaken.

Furthermore, by not correctly undertaking the appropriate works, opportunities were missed to determine the root cause of the damp and mould.

Additionally, the Council failed to undertake the appropriate works to repair a leak at the property, which may have contributed to the damp and mould.

The Council had since identified that there are structural issues at the property and major works are required. These are currently being undertaken and monitored by the Council's Capital Works Team.

26. Complaint against Housing Repairs

Response – 20 working days

Complaint upheld**Complaint**

The complainant contacted the Council and complained that an issue of rodents entering the property was not dealt with effectively.

Council's response

It was determined that an appropriate level of service was not provided as the Housing Repairs Team did not correctly follow up the blocking of the entry points at the property in the first instance that resulted in a delay in the pest issue being resolved.

While the Housing Repairs Team correctly undertook the initial works through a contractor to remove the pest issue at the property in January 2026, the follow up works to block the entry points was not scheduled.

The Housing Repairs Team were initially unable to undertake the works to block the entry points until the results of the asbestos survey were received and the pest control treatment was completed. However, this survey was undertaken as a urgent priority and was received a week after the reporting of the pests at the property.

Despite this, the Housing Repairs Team had failed to book the blocking of the entry points at the property until complainant had reported that the initial pest control treatment had failed and further treatments were required in March 2026.

The complainant contacted the Council and complained that an issue of damp and mould had not been rectified at their property.

Council's response

It was determined that an appropriate level of service was not provided as the Housing Repairs Team/Capital Works Team had significantly delayed the repairs to the property.

While some works were completed over the course of 2019-2025, it was evident that the underlying cause of water ingress and damp was not effectively diagnosed or resolved in a timely manner.

The repeated inability to access the 3rd storey loft space significantly hindered proper investigation, and this should have been addressed much earlier. In addition, communication with the complainant fell below the standard expected, and they were left to repeatedly chase updates.

Council's response

It was determined that an appropriate level of service was provided as the Capital Works Team and Tenancy Services Team had correctly undertaken the actions relating to the fire risk assessments.

In order for the Council to ensure that residents are safe within their homes, the decision had been made to remove all items from communal areas and areas which could be used to escape a potential fire.

This decision was factored by the recommendation provided by the fire risk assessment undertaken by the contractor, Savilles.

Assistant Director Comments

The Council had acted appropriately and in line with the tenancy agreement.

Complaint

The complainant contacted the Council and complained that the Council had not dealt with their homelessness application correctly.

Council's response

It was determined that an appropriate level of service was provided as the Housing Options Team had appropriately assessed the complainant's homelessness case.

During the complainant's initial homelessness case in 2024, the Council correctly discharged its duty when the offer of Derwentio Housing Trust accommodation was presented and accepted.

While Derwentio Housing Trust was supported housing, and not permanent accommodation, the complainant was appropriately housed for the Council to discharge its homelessness duty as they had accommodation.

Following the complainant's eviction from Derwentio Housing Trust, the Housing Options Team had attempted to contact the complainant to assess their current homelessness situation. This contact had been unsuccessful and the Housing Options Team could not progress the current application due to the lack of communication.

Assistant Director Comments

The Council had acted appropriately and in line with the Allocations Policy.

Council's response

It was determined that an appropriate level of service was provided as the Housing Options Team had correctly banded the complainant at band 2 with the appropriate number of bedrooms.

Council's response

It was determined that an appropriate level of service was not provided as the Tenancy Services Team did not correctly assess the items left at the property which were mistaken as being the complainants.

While Tenancy Services Team correctly identified that the items required removing, further investigations were not correctly undertaken to assess as to whether these items belong to the complainant.

The Council recognises that the correct action was not undertaken to identify the owner of the items that required removal.

26. Complaint against Housing Operations

Complaint

The complainant contacted the Council and complained that the Council had not increased their banding despite paying and supplying a doctors letter.

Council's response

It was determined that an appropriate level of service was provided as the Housing Allocations Team had correctly assessed the medical information they had provided.

The information provided was not sufficient enough to provide the complainant with a change of banding.

However, the Council recognises that obtaining this letter has cost the complainant £45 and had caused frustration as this has not affected their banding.

Assistant Director Comments

The Council had acted appropriately and in line with the Allocations Policy.

27. Complaint against Housing Operations

Response – 20 working days

Complaint upheld

Complaint

The complainant contacted the Council and complained that the Council did not provide the correct advice regarding a Discretionary Housing Payment (DHP).

Council's response

It was determined that an appropriate level of service was not provided as the Housing Allocations Team did not provide the correct advice regarding the DHP application.

The Council's records indicate that while an application was submitted, this was undertaken on the same day as the beginning of the complainant's tenancy as advised by the Lettings Officer.

As a DHP application requires completing and processing before the commencement of a tenancy, as this was undertaken on the same day as the start of the tenancy the application was not valid and was rejected.

Furthermore, the Council did not provide the complainant with sufficient time to complete the application for it processed and determined due to the short amount time from the viewing of the property and the tenancy sign up.

An apology and £150 compensation was offered.

Assistant Director Comments

It is recognised that the Council had not provided the complainant with the correct advice. This advice as given by a temporary member of staff who has since left the Council. There is no wider concern that the incorrect advice is being provided in relation to DHP.

Council's response

It was determined that an appropriate level of service was provided as the Private Sector Housing Team have appropriately contacted the complainant following concerns raised by their tenants.

The correspondence between the Private Sector Housing Team and the complainant had been polite and factual and there was no evidence to suggest that any of the correspondence had been inappropriate.

The Private Sector Housing Team used the relevant information, including site visits, information provided by the complainant's tenant and the complainant to form their conclusion.

The Private Sector Housing Team deemed it to be necessary to issue the complainant with an Improvement Notice due to the condition of your property.

The Private Sector Housing Team had issued the complainant with the necessary guidance in order to improve the condition of their property and how to comply with the Improvement Notice.

Assistant Director Comments

The Council had acted appropriately and in line with Policies to investigate the condition of the property.

2. Complaint against Environmental Health

Response – 20 working days

Complaint upheld

Complaint

The complainant contacted the Council and complained that the Environmental Health Team had not investigated their complaints of Anti-Social Behaviour correctly.

Council's response

It was determined that an appropriate level of service was not provided as the Environmental Health Team had not appropriately managed the complainant's expectations in relation to actions that could be undertaken as part of their Anti-Social Behaviour (ASB) case.

Furthermore, there was a delay in the Environmental Health Team issuing a Community Protection Warning (CPW) and Community Protection Notice (CPN) which led to additional delays in the preventative action being undertaken.

Additionally, the Environmental Health and Communities Teams inappropriately passed the responsibility of the case between themselves instead of collaborating more effectively in jointly resolving the issues. This resulted in complainant having to contact multiple different departments which further led to their distress and confusion.

As two teams of the Council, it was a reasonable expectation that one team (albeit a Team that required collaboration from other Council departments) would need to be contacted in order to progress any issues with the ASB case.

An apology and £3,000 compensation was offered and accepted.

Assistant Director Comments

The Council recognises that the appropriate action was not undertaken correctly which led to delays and distress of the complainant.

Complaint Team Recommendations/actions

- The Environmental Health and Communities Teams have been reminded of their responsibility to appropriately communicate with individuals.
- The Environmental Health and Communities Teams have been reminded to appropriately manage an individual's expectations.
- The Environmental Health and Communities Teams have been reminded to appropriately collaborate to ensure that individuals are supported throughout the ASB process.
- The Environmental Health and Communities Teams have been reminded to issue Notices in a timely manner where clear breaches have been identified and informal approaches to resolve matters have failed.
- The Environmental Health and Communities Teams have been reminded of their responsibilities to identify vulnerability as a potential factor in ASB cases. Where vulnerabilities have been identified the Environmental Health and Communities Teams should look to take these into account in expediting any actions in accordance with the Council's policies.

Council's response

It was determined that an appropriate level of service was provided as the Licensing Team had appropriately considered the application for the massage and special treatment business.

No objections were raised by Nottinghamshire Police and as part of this process the Environmental Health Team considered the application and had no objections.

Due to this, there was no justification for the license to be refused.

Assistant Director Comments

The correct actions were undertaken to review the license. There was no evidence to suggest that the license should be refused.

5. Complaint against Environmental Health

Response – 20 working days

Complaint not upheld

Complaint

The complainant contacted the Council and complained that the Environmental Health Team have not reconnected their gas supply to their property.

Council's response

It was determined that an appropriate level of service was provided as the appropriate advice had been provided regarding the gas being disconnected from complainant's property.

The Council does not have the power to reconnect the gas or dictate the method in which Cadent would reconnect the gas. This remains an issue between the complainant and Cadent to resolve as a private home owner.

There was no information to suggest that the Environmental Health Team have misinterpreted their enforcement powers. The Environmental Health Team cannot undertake enforcement on Cadent.

Under the Housing Act 2004, if the Council identifies hazards with a dwelling and deem enforcement action is required the action must be taken against the person who has a legal responsibility for the dwelling where the hazard is identified. It does not allow the Council to take action against any person who does not have a legal interest in the property affected.

Assistant Director Comments

The correct actions were undertaken to advise the complainant that as the legal owner of their property they are responsible for the reconnection of the gas supply.

Assistant Director Comments

The correct actions had been taken to investigate the issue raised. These were undertaken promptly and Notices were issued to ensure that the garden is tidied.

Information Governance**1. Complaint against Information Governance**

Response – 20 working days

Complaint

The complainant contacted the Council and complained that the Information Governance Team had not released the requested data as part of a Freedom of Information request.

Council's response

It was determined that an appropriate level of service was not provided as the Information Governance Team had incorrectly identified the requested information relating to the outcomes of complaints/accusations made against the Council's Senior Management Team as being exempt due to it containing personal data.

Furthermore, the Information Governance Team did provide the complainant with the correct Decision Notice for this refusal as required by the Freedom of Information Act.

The data was subsequently release as part of the stage 2 complaint response.

An apology was offered to the complainant.

Assistant Director Comments

The Council recognises that the information was incorrectly withheld in the first instance and the correct Decision Notice was not provided which led to confusion.

Capital Works**1. Complaint against Capital Works**

Response – 20 working days

Complaint not upheld

Complaint

The complainant contacted the Council and complained that the Capital Works have refused to install a fence at their property to protect their privacy and their new build property had been built incorrectly.

Council's response

It was determined that an appropriate level of service was provided as the Council and its contractors have correctly built the property in accordance with the approved plans.

The Council was unable to erect a fence around the property as this would interfere with the public highway, the communal access to the properties and would sit flush with the windows.

Furthermore, a fence can only be installed up to 1m on a public highway. Any fence higher than 1m would require planning permission.

There was no information to suggest that the Council had acted inappropriately when constructing the property or in contravention of the Housing Ombudsman Guidance and Housing Act 1996.

Assistant Director Comments

The property has been constructed in accordance with the approved plans and remains a safe place to reside.

2. Complaint against Capital Works

Council's response

It was determined that an appropriate level of service was not provided as the Council did not communicate the delays in the kitchen being installed.

During the course of the kitchen installation, damp and mould was discovered behind the kitchen cabinets.

While the Council undertook the correct action to have the damp removed and investigated, the delay that occurred due to these works were not communicated with the complainant.

An apology and £500 compensation was offered.

Assistant Director Comments

The Council recognises the inconvenience caused by not communicating correctly with the complainant.

Complaint Team Recommendations/actions

- The Capital Works Team have been reminded of the necessity to communicate effectively with individuals.
- Where delays are expected, the Capital Works Team have been instructed to contact individuals to notify of them of any delays and remain in regular contact until a conclusion is reached.

Council's response

As notification had not been received of the need to change the forwarding address, the bills continued to be sent to the last known address.

Assistant Director Comments

The Council Tax acted appropriately by continuing to send the Council Tax bills to the last known address.

Council's response

It was determined that an appropriate level of service was provided as the Benefits Team had correctly provided the complainant with assistance when making a benefit claim.

There was no evidence information to suggest that the Benefit Team had acted inappropriately toward the complainant or acted outside of the scope of the Care Act and Equality and Diversity Act.

Assistant Director Comments

There is no evidence to suggest the complainant had been treated poorly during their benefit claim.

3. Complaint against Council Tax

4. Complaint against Council Tax

Response – 20 working days

Complaint not upheld**Complaint**

The complainant contacted the Council and complained that the Council had obtained a Liability Order and then later withdrew it.

Council's response

It was determined that an appropriate level of service was provided as the Liability Order was granted due to arrears on the Council Tax account.

While payments had been made toward the Council Tax bill, these were late which resulted in the account being in arrears. This was sufficient to result in a Liability Order being granted.

However, in recognition of the payments toward the Council Tax Bill, the Council Tax Team ultimately undertook the decision to withdraw the Liability Order.

Assistant Director Comments

The correct action was undertaken in obtaining the Liability Order in the first instance and withdrawing following payments being made toward the arrears.

Stage 3 - Ombudsman Complaint**1. Complaint against Communities (complaint concluded in 2024/25) – LGO****Complaint not Upheld.****Complaint**

The concern raised was that the Council issued a Community Protection Warning, followed by a further warning of a Community Protection Notice, without any evidence against the complainant.

Ombudsman's conclusion

The LGO found that a Community Protection Notice was issued, which could have appealed in court. Based on this evidence, the LGO have discontinued the investigation.

2. Complaint against Bereavement Services (complaint concluded in 2024/25) - LGO**Complaint not Upheld.****Complaint**

The concern raised was that the complainant's memorial garden on their father's grave needed to be removed.

Ombudsman's conclusion

The LGO found that there was insufficient evidence of fault by the Council to warrant an investigation.

3. Complaint against Housing Repairs (complaint concluded in 2024/25) - HO**Complaint Upheld.****Complaint**

The concern raised was the Housing Repairs Team handling of reports of a drain blockage.

Ombudsman's conclusion

The HO found that while the Council's repair responses were mostly timely, its failure to follow up a repair following access issues caused distress and inconvenience to the resident. It also failed to consider an escalated response given the repeated issue and the resident's vulnerabilities. Finally, it failed to address the resident's concerns about communication and the safety of their property.

The HO ordered the Council to undertake a £300 compensation payment which has been completed.

4. Complaint against Housing Repairs (complaint concluded in 2023/24) - HO

Complaint Upheld.

Complaint

The concern raised was that the Council did not repair a leaking ceiling in a timely manner.

Ombudsman's conclusion

The HO found that in accordance with paragraph 53(b) of the Housing Ombudsman Scheme, the Council had made an offer of redress prior to investigation which, in the Ombudsman's opinion, satisfactorily resolves the complaint about its handling of a roof leak at the resident's property.

There was a lack of attention to detail in the stage 1 response as the wrong block number was referred to and the Council addressed some unrelated issues that had been mentioned in the December 2015 email that had already been resolved some time ago.

Given it accepted some failings it would have been appropriate for the Council to have offered compensation in its stage 1 response. It is noted however that this was remedied in the Council's stage 2 response where it made an appropriate offer of compensation in line with the remedies guidance for the delays in resolving the roof leak.

The Council was ordered to pay £300 for the handling of the stage 1 complaint. This has been completed.

5. Complaint against Housing Repairs (complaint concluded in 2024/25) - HO

Complaint Upheld.

Complaint

The concern raised was that the Council did not handle a boiler repair appropriately.

Ombudsman's conclusion

The HO found that In accordance with paragraph 53(b) of the Housing Ombudsman Scheme, the Council provided reasonable redress in response to the resident's complaint about its handling of boiler repairs. A payment of £250 compensation was issued at stage 2 of the Council's complaint process.

The resident raised concerns about whether the Council considered her mother's vulnerabilities when it responded to the boiler issues. The HO would expect the Council to consider a resident's needs and vulnerabilities when responding to a boiler not working. The Council attended a day earlier than was required and this indicates that the Council had given the repair an additional priority but did not communicate this clearly to the resident.

The Council acknowledged there were failures in how it responded to the boiler issues and these include:

- The out of hours phone line did not work on the Easter bank holiday Friday.
- Its contractor did not bring overshoes to appointments.
- There was poor communication about when the contractor would be coming for follow up appointments.
- Its contractor did not initially identify why the new boiler was not working.

Overall, the HO were satisfied that the acknowledgement of its failures, apology, and compensation provided by the Council represents reasonable redress for the failures in respect to its handling of the boiler repairs. The compensation that it had paid is in line with what the HO may have awarded for this type of issue and, in their opinion, is proportionate to the impact to the residents.

6. Complaint against Housing Repairs (complaint concluded in 2024/25) - HO

Complaint Upheld.

Complaint

The concern raised was that the Council did not handle a report of a blocked drain.

Ombudsman's conclusion

The HO found that in accordance with paragraph 52 of the Scheme, there was maladministration in the landlord's handling of the repair of blocked drain.

Despite the multiple reports of the same issue and different contractors attending the property, the issue was not resolved to the resident's satisfaction.

It is reasonable for Council to rely on independent and professional contractor's advice. However, as this issue was repeatedly reported and there was a clear dispute on what was causing the blockage, the Council should have considered at an earlier stage an alternative approach or done more to investigate the resident's concerns.

This is particularly important as the resident reported significant inconvenience that they were unable to use their shower for months and the inconvenience caused by the multiple visits. Despite a contractor recommending cameras should be used, this was not done. It would have been appropriate to follow the expert advice. Its failure to consider an escalated response was therefore unreasonable in the circumstances.

The Council was ordered to pay £300 for the handling of the reports of the blocked drain. This has been completed.

7. Complaint against Planning (complaint concluded in 2024/25) - LGO**Complaint not Upheld.**Complaint

The concern raised was that the Council did not consider a planning application correctly.

Ombudsman's conclusion

The LGO would not investigate this complaint about how the Council dealt with a planning application. This is because they were unlikely to find fault.

In this case, the LGO were satisfied the Council properly assessed the acceptability of the development, including the impact on the complainant's, the character of the area and the impact on highway visibility, before granting planning permission. The case officer's report referred to the objections received and explains why the Planning Officer considers the proposal overcomes these.

8. Complaint against Planning (complaint concluded in 2024/25) - LGO**Complaint not Upheld.**Complaint

The concern raised was that the Council did not consider a planning application correctly.

Ombudsman's conclusion

The LGO would not investigate the complainant's complaint because they have the right to appeal to the Planning Inspector.

The complainant has complained about how the Council dealt with his planning application.

They disagreed with how the Council reached its decision to request additional information to support the application and believes it has been dishonest. The complainant says the Council has misinterpreted planning policies and it has approved similar applications in the area.

However, the complainant can choose not to provide the information requested if they does not agree with the Council's reasons for requesting it.

The complainant would have the right to appeal to the Planning Inspector if the Council subsequently decides to refuse permission for the development. The LGO consider it would be reasonable for the complainant to use their right to appeal.

The Ombudsman will not usually investigate when someone has a right to appeal to the Planning Inspector, even if the appeal would not address all the issues complained about.

9. Complaint against Housing Repairs (complaint concluded in 2023/24)**Complaint Upheld.**Complaint

The concern raised was that the Council did not deal with an issue of noise being created by an adjoining stair case.

Ombudsman's conclusion

The Council's stage 1 complaint response set out its position in relation to any repairs needed to the stairs. Which was appropriate. However, its response failed to address the specific concerns the resident raised in their complaint, the noise disturbance. This was an error in its handling of the matter. The resident was inconvenienced by the lack of response to the actual concerns raised.

The Council's stage 2 complaint response went some way to putting the above error right by setting out its position on the noise disturbance from the stairs. It explained its position that no repairs were needed. It also explained it needed recommendations from an Occupational Therapist (OT) before it would install sound proofing. While evidently disappointing for the resident, the Council's position was reasonable. OTs are best placed to understand what specific adaptations are needed based on the needs of an individual. The Council's stage 2 complaint response failed to address the lack of detail and shortcomings of its stage 1 complaint response.

While an appropriate position to take, the Council should have been more supportive in terms of assisting the resident with an OT referral/assessment.

The HO ordered the Council to issue an apology and £100 compensation.

10. Complaint against Housing Operations (complaint concluded in 2023/24) - HO**Complaint not Upheld.**Complaint

The concern raised was that the Council did not deal with an issue of noise generated by the building of new Council properties.

Ombudsman's conclusion

It was determined that the complaint was outside of the HO's jurisdiction.

11. Complaint against Housing Operations (complaint concluded in 2024/25) - LGO

Complaint Upheld.

Complaint

The concern raised was that the Council did not deal with an issue of housing allocation correctly during a homelessness application.

Ombudsman's conclusion

The LGO would not investigate the complaint about the Council's decision to end the relief duty after the complainant refused an offer of housing because they have appeal rights, which are reasonable for them to exercise.

In any case, there is insufficient evidence of fault in the Council's decision-making to justify the LGOs involvement.

12. Complaint against Environmental Health (complaint completed in Q3 2025/26) - LGO

Complaint Not Upheld.

Complaint

The concern raised was that the Council did not deal with an rodents at a neighbouring property correctly.

Ombudsman's conclusion

The LGO would not investigate this complaint about the Council's responses to reports of rats living in a neighbour's garden which is in poor condition. There is insufficient evidence that any further investigation would lead to a different outcome.
