Report of the Chief Executive

RESPONSE TO COVID-19 AND RECOVERY STRATEGY

1. <u>Purpose of report</u>

To ask the committee to approve the strategic approach to leading Broxtowe's recovery from the Covid-19 pandemic and to inform the Committee of decisions made under emergency powers during the emergency.

2. Background

In order to maintain transparency through the decision making process and ensure accountability, reports have been submitted to the Governance, Audit and Standards Committee, the Jobs and Economy Committee, the Personnel Committee, the Leisure and Health Committee, and will be presented to the Finance and resources Committee, detailing the Council's approach during the Covid-19 pandemic in addition to the approach towards post-pandemic operations.

Only two meetings were cancelled due to the initial stages of Covid-19. The Council is now running its full committee cycle under and adhering to the new powers in the Coronavirus Act 2020.

It should be noted that the timing of the pandemic was such that there was a hiatus between committee meetings prior to the Annual Council in May 2020. In order to maintain the Council's decision-making processes during that time, the Chief Executive's urgency powers, in consultation with the Leader of the Council, have been utilised in accordance with the Constitution. These decisions were logged in addition to all service decisions taken within delegated powers made by Heads of Service which related to Covd-19. Decisions which had expenditure implications are outlined in appendix 1 of the report.

Appendix 2 of the report sets out the council's proposed approach to leading Broxtowe's recovery from the pandemic and the role of the Policy and Performance Committee in co-ordinating the efforts of service committees.

Recommendation

The Committee is asked to NOTE the exercise of decisions under emergency powers set out in appendix 1 and RESOLVE that the approach to recovery set out in appendix 2 be approved.

Background papers Nil

APPENDIX 1

BROXTOWE'S RECOVERY STRATEGY Notts Policy and 1. Leadership: Recovery Performance Group committee Provide political leadership for covid 1. Co-design the recovery with communities, recovery businesses and the voluntary sector, 2. Undertake an Impact and Opportunity co-ordinate and initiate BBC's response to Assessment the covid 19 pandemic 3. Develop a Recovery Action Plan develop strategy and policy in relation to 4. Help to shape the future vision for Nottingham community and economic recovery from the and Nottinghamshire, including by identifying pandemic opportunities to 'build back better' and to ensure adequate resources for covid 19 enhance resilience for communities. recovery 5. Identify potential funding sources to support recovery 6. Establish close links with central government 7. Ensure effective communications 8. Ensure effective protocols for political involvement and liaison 9. Develop an exit strategy to ensure that recovery efforts can effectively become part of mainstream delivery. 10. Identity best practice and lessons learned

2. Vision

The residents and businesses of Broxtowe will not only recover from COVID-19, but emerge with a fairer, more just and enriched community life, better mental and physical health outcomes for all; a sustainable fast growing local economy and a cleaner environment for all to enjoy.

3. Damage and Needs assessment

• Economic needs assessment (Led by Jobs and Economy Committeesee report to that committee 18.6.20)

APPENDIX 2

- Community needs assessment (led by leisure and Health Committee– see report to that committee 10.6.20)
- Internal/BBC services recovery (led by personnel Committee see report to that Committee 30.6.20)
- Financial recovery (led by Finance and Resources committee) see report to that committee 9.7.20)

Issues to feed in:

- lesson-learning from the 2020 crisis and how this impacts future emergency planning – particularly with regard to pandemic preparedness and crisis management. (Policy and Performance committee)
- How far BBC and partners might mainstream some of the experiences of very rapid response, adaption, redeployment, and labour flexibility. (Personnel Committee)
- Reflect on implications of more home working and home learning and consequences for economy and place making Need for stable and resilient high bandwidth internet connectivity to sustain. (Jobs and Economy Committee)
- Social impacts: leisure and recreation and the significant impact on these sectors; the highly variable impact of the pandemic on vulnerable groups and communities. (Leisure and health Committee)
- Positive impacts experienced including from increased volunteering, reduction in carbon emissions. (Environment Committee)
- Ongoing financial impacts of the pandemic on the Council's finances (Finance and Resources Committee)

4. Initial phase 1 recovery

(a) **Public services resumption**

Our own services

- How we establish a "new normal "way of operating as a local authority (might include renting out more space within the Council offices)
- How we can adapt our offices and service points to manage health risks
- Catch up on backlogs in service provision: eg repairs
- Manage risk, reduce harm and increase resilience

Town centres and public places

- Deep cleaning; public places
- Managing use to reduce risk of harm
- Promoting our town centres and businesses

Communities

• Providing information

- Restoring confidence- PR internal and external
- Celebrating heroes, successes

(b). Supporting private and third sector basic services

- Review/renew and continue grants
- Identify who the key organisations are we need to work with
- Consider flexing our workforce to further support third sector
- Identify resources we can bid for to support private sector and third sector
- Research the needs and impacts of covid on third sector and business community

(c) Build higher levels of resilience for reopened infrastructure, workplaces and services

- Continue to promote and value the flexibility of workforce agility and homeworking
- Increase resilience of areas like refuse, crematorium, contact centre
- Learn from what we have already done and from good practice elsewhere

(d). Continuing support for those who need it

- Undertake research to identify where our efforts need to be targeted
- Mobilize and enable the community to support one another
- Identify issues relating to inequality of provision, ensure all sections of the community receive the support they need and that all voices are heard.

(e) . Manage our finances

- refreshed business strategy
- Consider needs of those in economic hardship: the hardship fund and rent payments, both individuals and businesses

(f). Continue with existing planned Strategic investments to restart the economy

- Stapleford business hub
- Mushroom farm
- Stapleford Towns fund
- Beeston Regeneration phase 2
- Housebuilding programme
- Decisions about future Leisure provision
- Green investment

5. Medium to Longer Term Recovery Strategy

A: ECONOMY

Develop a new Economic Development and Regeneration strategy which

- Ensures a properly balanced and resilient economy, in the light of impacts of covid 19
- Puts as high a value on the role and contribution of key workers as knowledge workers.
- Review investment strategies in the light of impacts of covid 19 on existing businesses.
- Promote new technology and full fibre broadband
- Refresh and repurpose place-based anchor institution collaboration post-crisis (eg Trent and Nottingham Universities)
- Start planning for Eastwood and Kimberley regeneration
- Actively engage in E Mids Development company: HS2/Toton Strategic growth as important for the long term prosperity of the area.

B: ENVIRONMENT

Ensure our **Green Futures programme** fully embraces the opportunities of a dramatic reduction in carbon emissions during the lockdown period.

- a new impetus to green agendas
- Rediscovering local green spaces and essential services within a 10 min walking radius of where you live.
- Embedding behavioural change to save the planet: less commuting, more homeworking
- How can we capitalise on changes to previous modes of travel by promoting pedestrianisation, increased cycle infrastructure, promoting public transport.

C: SOCIAL

Develop new strategies for the voluntary sector, Food poverty and fuel poverty

- Map community support. Identify gaps and weaknesses- a risk is that the pandemic will have widened existing inequalities. We need to intentionally strengthen social capital where it is currently weaker.
- Explore the support of ground roots volunteering and encourage street level resident "champions" to increase resilience for future emergencies and capitalise on citizen engagement
- Develop a new voluntary sector strategy to support the community
- Strengthen food banks and consider other key means of social support.
- Support people to keep themselves warm through the Winter months
- Develop initiatives to support mental health- internal and external
